

## MEDICAL EXAMINATION INSTRUCTIONS

---

Applicants after receiving Interview letter will be directed to contact post's local panel physician. The panel physician (contact information located below) will schedule an appointment and provide all testing, with the exception of a tuberculosis sputum test (if applicable) which will be performed at the National Tuberculosis Institute in Kabul. The panel physician will refer applicants who need tuberculosis sputum testing to the National Tuberculosis Institute as required. The panel physician agreement went into effect on 01 January 2011 with the DK German Clinic.

The panel physician has assured post that they will be able to see applicants for medical examinations in a timely manner, within a matter of days. Once applicants' medical examinations are completed, the relevant medical examination paperwork will be presented by the applicant (in a sealed envelope) on the day of their interview.

At this time, post has one panel physician located in Kabul with no plans of signing additional panel physician agreements.

Contact information for the Panel Physician:

DK German Clinic  
Dr. Susanne Lugner or  
Dr. Christoph H. Larsen  
Street 66 / House 138 / District 4
